THE BRIGGS CASE.

HE DEFENDS HIMSELF BEFORE A NEW YORK PRESBYTERY.

The Charges are Dismissed by That Body But Will Probably Come up Bofore the Synod.

Dr. Briggs' Trial.

New York, Nov. 4.—The New York presbytery assembled this morning in the Scotch Presbyterian church on Fourteenth street near Sixth avenue for the purpose of beginning the trial of Professor Charles A. at they do not intend to relating in-tupon the professional resents this country in

Dr. John C. Bliss presided as moderator and called the presbytery to order. There was a full attendance.

One of the chief charges against Dr. Briggs is that he disputes the inerrancy of the bible. Professor Briggs read a paper objecting to the form of the charges preferred, stating that the report of the committee which formulated the indictment against him charges offenses which are not now proposed for trial.

now proposed for trial.

The committee charges him with uttering doctrinal teachings respecting miracles, the original condition of men. etc., without attempting to prove the charges. This, Dr. Briggs said, did him great lujustice and was apt to prejudice the decision of the members. He said if he had caused widespread anxiety in the church he was sorry, but in his conscience he felt no guilt as regards disturbing the peace and harmony of the church. He further added that the charges were general obscure and irregular in form throughout. There is nothing in the specifications that can be tested by the the specifications that can be tested by the defendant. He admitted the excerpts from his address made on the occasion of his inauguration as professor of bloheal theology in the Union theological seminary.

There was nothing to deay in "that the

Bible a a book is paper, print and binding, nothing more. It is entitled to reverent landling because it contains the divine word of redemption for men, and not for any other reason whatsoever." He said also that the indictment contained insinua-tions wholly unwarranted. He denied that

Dr. John J. Stevenson of the prosecuting committee said that the committee would, in due time, reply to Dr. Briggs' answer. He maintained that the charges nd specifications are in perfectly proper

Dr. VanDyke moved to dismiss the case against Dr. Briggs and dismiss the commit-tee. The motion was received with laugh-

The presbytery resumed its session promptly at 2 o'clock. The church was crowded. After a brief preliminary the resolution of Dr. Van Dyke was taken up. The doctor made a dignified and carnest plea in support of his proposition to dismiss the case against Dr. Briggs.

Col. M. C. Cook urged that the trial proceed for the purpose of making a formal record.

Rev. J. Ford Sutton moved an amendment, adding the words to Dr. Van Dyke's motion that the charges be dismissed "in consideration of Dr. briggs' answer." A general discussion followed, during which this extract from a letter written by

Dr. W. G Sledd made an earnest appeal against the dismissal of the charges.

The resolution as amended to dismiss was then read and a vote was taken by roll-call, resulting 95 for and 49 against; seventy-one ministers and twenty-four elders voting in the affirmative, and twenty-six ministers and twenty-three elders voting in the negative. This action, however, does not end the controversy, as it will undoubtedly be taken before the New York synod.

Protestants Persecuted.

LONDON, Nov. 4.-The Chronicle this morning publishes a dispatch from Tiflis, in Russian Trans-Caucasia, saying that the procurator of the Russian synod has finished his career of persecution by the arrest of the chief leaders in the Protestant move-ment—Messrs. Bagdasarianz, the leader of the Protestant Armenians; Kaireit of the German Baptists; Mayıf, the Russian, and Lerashoff, a Methodist. They were all torn from their families and sent secretly for a term of five years to a mountain dis-trict on the Russian frontier. Hundreds of members of these sects have also been cruelly banished and reduced to the condition of paupers. Their friends are afraid to leave for fear that they will be compelled to share the same fate.

Piracy is again rife along the coast near Amoy after having subsided a little upon the capture and execution of fourteen sea-rovers in the spring. Three days before the midatumn festival, a merchant junk heavily laden, while proceeding to Amoy, was followed by a strange craft. When the vessels were close together the junkmen called out to the crew of the unknown boat to keep clear and avoid a collision, but the reply was the firing of a bomb, followed by several men with cutlasses and pistols. he ever taught doctrines conflicting with the holy Scriptures as the only infallible rule of faith and practice.

The question was raised whether the committee of Presbyterians which formulated the indictment was the original party to the action. The mederator ruled that it was.

Dr. Henry VanDyke, one of Dr. Briggs' supporters, entered a protest based on the supporters, entered a protest based on the spot and one sallor leaped overboard and was drowned. The rest of the crew and the lowdah were tied to the masts. After dividing the booty the pirates auchored their sailing away. The authorities dispatched many boats in pursuit, but all returned without effecting their object.

Revolution in Brazil. LONDON, Nov. 4.—A dispatch which has sen received here from Rio de Janeiro, the capital of Brazil, brings news of what seems to be little less than another revolution. Congress, the dispatch says, has been dis-solved and martial law has been proclaimed at Rio de Janeiro and throughout the prov-inces. A cablegram also announces that a dictatorship has been established in Brazil.

Fuller dispatches regarding the revolu-on announced to have broken out in Brazil are anxiously awaited here by financiers and merchants who have large interests at stare in that country. The hope is ex-pressed that the alarming report received my not turn out to be based upon as serious a state of affairs as at present outlined. It is recalled that early in October and again about the middle of October, similar reports were circulated regarding the condi-tion of Brazil.

Investigation of these rumors resulted in

an official statement to the effect that per-fect order prevailed everywhere, and that the financial condition of the country was never better. It was also asserted at that time that it was expected that a surplus amounting to \$15,000,000 would be shown by

the budget in 1892. Marshal Deodora DeFonsera at that time was announced to have entirely recovered from the illness he had been suffering from for some time. That there were disturb-ances of a serious nature at Rio Janerio early in October was not entirely denied. but it was said they were of a purely loca character. They broke out during the night of October 8 at the Italian theater and the trouble soon spread to adjacent streets. The police arrested many of the rioters, but being outnumbered were compelled to c on the troops for protection. A force of avalry consequently was sent to the seen of the riots and the troops were compelled to make several charges upon the mob before order was restored.

A number of people were killed and many more wounded during this disturbance, which is said to have had its origin in po litical intrigues or conspiracy regarding the successor to the presidency, that question having assumed prominence owing to the reported weak state of the president's health. Throughout the night and next day troops patrolled the streets of Rio There was some further desultory fighting, several having been killed on the day following. The Brazilian Trouble.

Washington, Nov. 4.—The reported revolutionary movement in Brazil, accom-panied by the declaration of martial law and the establishment of a dictatorship, is likely to cause another demand upon the already strained resources of the navy, for it is regarded as necessary for the protection of American interests that a naval force be on hand there in case of a formidable outbreak. The only vessels regularly at-tached to the South Atlantic station now in the vicinity of Rio de Janeiro are the Essex and Tallapoosa. Trouble in Ireland.

DUBLIN, Nov. 4.—Dispatches from Water-ford, where the convention of national federation is being held, say great excitement prevails there. The streets are crowded with uproarious mobs, and the people are ready for any kind of a disturbance. The police in their efforts to control the mob have been making free use of their batons with the result that

several civilians have been injured.

Timothy Healy, who was horsewhipped yesterday by McDermott, a nephew of the late Charles Stewart Parnell and solicitor for the Parnell family, was one of the speakers. He said among other things that he would not be deterred by violence from pursuing the course he had mapped out for himself, and repeated the language in reference to the widow of the Irish leader which he used at Longford on Sun-day last, and which led to the chastisement he received at the hands of McDermott.

The convention proceeding, Mr. Dillion confirmed Mr. O'Brien's Boulogne revelations, and added, that men now calling him traitor, had telegraphed to him while he was in New York offering him the leadership in succession to Parnell. Continuing Dillon said notwithstanding the calumnies heaped upon him, he had never before revealed these facts. Messrs. Harrington and Redmond and Messrs. Harrington and Redmond and other prominent Parnellites had joined in the request which was made after he had declared against the leadership of Parnell.

He refused the leadership because it was a painful and difficult position, a position which he had never soughe or wished and one which he would be slow to accept. After arriving at Boulogne he told them that he could not accept the position unless all concurred in promis-ing a loyal support. Those men one and all, promised that if he (Dillon) took the chairmanship they would be his loyal followers. would be his loyal followers. He had done nothing since that altered his position a hair's breadth. For weeks at Boulogne they were as anxious to get Par-nell out of the leadership as the majority

Cleveland's Opinion.

New York. Nov. 4.—When seen at his residence on Madison avenue, ex President Grover Cleveland gave his opinions of the result of Tuesday's election as fol-lows: "Of course every one has a right to but his own construction upon right to but his own construction upon the result and I am not anxious to obtrude my ideas, but it seems to me that some things ought to be no longer doubtful. Any man who thinks tariff reform is a settled and obselute issue or that the importance of sound and safe money is a question upon which people can be blinded, is either willfully wrong or dangerously dull. It seems to me too that Democrats ought to be satisfied that a staunch adherence to the principles of their party does not require abuse of those who party does not require abuse of those who show an inclination to help us. I very much regret the defeat of Governor Campbell. He has been a brave and honest official. This and the splendid canvass he made entitled him to success. While the election of Flower Russell and While the election of Flower, Russell and Boies ought to cause the utmost rejoicin among Democrats, they should not forget that they stand under some obligation to be true to the people, honest in the advocacy of our principles and decent in all things."

The Herald's Opinion.

New York, Nov. 4.—The Herald says it is convinced of Flower's election, but it will be a sort of boomerang to the Democrats in the presidential campaign and a blessing in disguise to the Republicans.

Special to the Gazette. NEW YORK, Nov. 4.-The Republicans have gained one congressman as the result of yesterday's elections in the six dis-tricts in which yacancies existed and for which special elections had been called. There are two vacancies still, one in Tennessee, where an election will be held the latter part of this mouth, and one in Virginia to be filled in December. ginia to be filled in December The Republican gain is in the Fifth Michi gan district, where ex-Representative Charles E. New York, Nov. 4.—The latest returns show Flower's majority to be 40,055 in the state, and the entire Democratic state ticket is elected. In this city Flower's plurality was 58,845, a Democratic loss of 10,000 from the vote cast for Hill. The Democrats gained several senators and the assembly goes Democratic by eight.

McKinley's Plurality.

CINCINNATI, OHIO, Nov. 4.-Unofficial returns have been received from all counties in Ohio except nine. They show a plurality for McKinley of 21.870. The nine counties unheard from, which are Coshockton, Geauga, Hocking, Holmes, Monroe, Morgan, Noble, Perry and Wayne, gave a Democratic plurality of 3843 in 1890.

The Alliance Defeated. Kansas Citt, Mo., Nov. 4.—The power of the farmer in Kansus politics is broken for a time at least. The Alliance met a crushing defeat at the polls yesterday. The general result is best indicated by the returns from the ten judicial districts. In only one was an Alliance candidate successful, that district comprising the counties of Kingman, Pratt and Kiowa, where the farmers elected William Bashor. That was formerly the stronghold of the Union Laborites, who joined the farmers when the latter went into the politics business, there were two Republican candidates in the field there which divided the Republican strength. In the nine districts remaining, seven of the successful candidates are Republicans and two are Democrats. In two districts the Republicans and Democrats combined against the Alliance. A special to the Star from Tepeka

says Democrats and Republicans alike profess to believe that the People's party in this state is out of power to stay out and that the fight next year will be on the old lines. There is something touching in the greeting of old party politicians who have fought each other for years. The crushing Alliance defeat is a common cause for joy.;

Jolly Elected.

St. Paul, Mrs., Nov. 4.—Reports from the congressional election in South Dakota are very slow in coming in, but enough has been received to indicate the certain election of Jolly, Republican, to congress by a good vote. The vote for Smith, Independ-ent, is larger than had been claimed for him. in fact, there is one point of the election thus, far made evident, the Democrats did little campaign work, but in many counties their vote exceeds that for the independent or Alliance candidates.

Jolly's plurality will probably be from 3000 to 5000.

Jolly Gets It.

Yankton, S. D., Nov. 4.—Information received at the headquarters of the Democratic central committee in this city is to the effect that South Dakota will give Jolly (IL) a majority of about 3500 over Smith, Independent, and that Woods, Democrat, is defected by a factor of the same control to the same cont feated by a larger plurality than was Quigley, Democrat, last year. Yankton county gave Jolly a plurality of 160

PHILADELPHIA, PA., Nov. 4.-Thirty-two counties in Pennsylvania give Gregg, Republican candidate for auditor-general, 61.602 plurality, and twenty-four counties give Wright, Democrat, 24.500, Twenty-three counties show Republican gains of 9769, and thirty-three show Democratic gains of 14.047.

Heim Elected.

DENVER, COL., Nov. 3.—Election returns are delayed so that it will be impossible even to-night to get the exact result. Sufficient, however, has been received to determine that Judge Helm, Republican, has been chosen chief justice by from 7000 to 10,000 majority. Partial returns from 16 election residence of Mrs. Greenwood, Keel's sister, districts in this county give the Republicans the entire ticket by majoraties ranging from 1371 to 3337. With the exception of Lake and Las Animas counties the Republicans elected their entire ticket in every county in the state.

CHICAGO, I.L., Nov. 4.—Complete returns show the entire Republican ticket elected in Cook county, with majorities of from 7000 to 14,000. The only Democrat elected was Lyman E. Cooley, drainage trustee. Every man indersed by the American or Know-Nothing party was elected.

CHICAGO, ILL., Nov. 4.-The merry somewhat monotonous click-click of the thousand little telegraph machines was heard once more on the board of trade today, and somehow it seemed to make things appear liveller on the floor. Perhaps it did not make any more trades in wheat, or corn, or pork, but the "bulls" and "bears" certainly ap-peared in brighter spirits by being brought into a closer communication with the out side commercial world. The old telegraph the nimble operators as busy as a hive of bees. Did the bucket shops get the quotations? Well, as a sly fellow remarked, "There are more ways than one of skinning a cat." The telegraph companies have been strictly forbidden to send prices to the bucket-shops, but those institutions always arrange by hook or crook to get the tions, and they will not get left. Lincoln was sending quotations to his cus-tomers all morning, but he had not quite completed arrangements for sending the prices to the commercial exchanges of St.

SEVENTEEN KILLED

The Anaconda Mine Crushes the Life Out of 17 Miners.

HURLED DOWN THE SHAFT

Just as Nineteen Men are Going to Work in Cage a Rope Breaks.

Death Came Instantly to All but Two the Poor Fellows, and They Will Die Too-Narrow Escape of Men in the Mine.

Seven Miners Killed.

BUTTE CITY, MONT., Nov. 4 - Seventeen miners coming up in a care were sailed this morning in the Americal article. When midnight, the time to shift the gauge of men, had come, and the enge full of miners returning from work stepped out into the open air, their places were at once taken by the nineteen men who were once taken by the nineteen men who were to take up the work they had just abandoned, and the cage was started toward the depths below. The rope had been unwound but a couple of times from the slowly revolving windhass when there was a sinden snap and a cry of horror from the shaft in which the cage had but a moment before disappeared. The rope had broken, and the care with its nineteen inmates was pre-cipitated to the bottom of the muse.

cipitated to the bottom of the muse cipitated to the bottom of the mine.

It was some little time before] my assistance could be sent to them. The shalt down which they had plunged to death was useless, and the other ways of getting at the place where they had failen were roundabout. Fortunately there was some help for the dead and dying in the mine itself. A number of miners who were through work and waiting to be relieved were at the bottom of the shalt, awaiting the care the bottom of the shaft, awaiting the cage to take them out. Amidst these men, par-rowly missing some, the cage dashed. It broke, and before their eyes were the broke, and before their eyes were the mangled bodies of the companions whom they were awaiting. There was little, how-ever, that could be done. Of the nineteen men who made the fearful ride seventeen were dead, their forms crushed out of all resemblance to those of human beings, while the two who were yet breathing had

small hopes of recovery.

The Anaconda is the biggest mine in the state, employed 400 men, and was reopened, after a long closing, on October 22.
